

THE ENTIRE TEAM AT INDIA TECHNOLOGIES PVT LTD

Broadcom's India Technologies Pvt Ltd in Hyberbad was awarded a Gold medal for helping the Red Cross mobilize resources for its various humanitarian activities for the financial year of 2008-2009. His Excellency, the Governor of Andhra Pradesh presented the Gold medal to Jay Udayavarma, Broadcom's Site Director on March 30, 2010.

An example of the dedication of the entire Broadcom team is their compassionate response to the 2008 Bihar flood. Recognized as one of the most disastrous floods in the history of the Indian state of Bihar, this flood was due to a breach in the Kosi Embankment near Indo-Nepal border on August 18, 2008. The river changed its course and inundated areas that had not experienced floods in last many decades, impacting over 2.3 million people.

To help their fellow citizens, 200 employees contributed a one day of their salaries to the International Red Cross Foundation for Bihar flood relief. They also contributed to the relief efforts at blood donations camps.

The team at Technologies Pvt Ltd in Hyberbad has been volunteering with their community for the last 5 years. Their concerted effort on behalf of the Red Cross is only of many accolades for which they deserve this salute as Broadcom Volunteers.
